## **Intrinsyc Announces Membership in the Symbian Platinum Program**

*Intrinsyc to provide specialized services and solutions to manufacturers of smartphones based on Symbian OS*

**Vancouver, BC, October 14, 2003**, Intrinsyc Software International, Inc. (TSX:ICS), a global leader in creating, networking and managing specialized, intelligent devices, today announced that it has joined the Symbian Platinum Program. Intrinsyc will be providing embedded software development solutions and engineering services and expertise to licensees of Symbian OS. Symbian OS is the global industry standard operating system for smartphones and is licensed by the world's leading handset manufacturers.

"Intrinsyc has been developing considerable knowledge and expertise of Symbian OS and offers compelling services and solutions to our licensees that help them get their smartphones to market much faster" said Martin Coul, Technology Partner Program Director, Symbian.

"Intrinsyc is pleased to be joining the Symbian Platinum Program and providing Symbian OS licensees with embedded software expertise, said Derek Spratt, Intrinsyc's President and Chief Executive Officer. "The combination of our OS expertise, strong relationships with semiconductor vendors and real world experience in bringing smartphone technology to market gives Intrinsyc a unique, competitive advantage in helping companies create new, advanced mobile phones. Extending these skillsets and expertise to Symbian OS allows us to build on this competitive advantage."

### **About Intrinsyc**

Intrinsyc provides unique software and hardware solutions that enable companies to cost-effectively create, network and manage a wide range of consumer and industrial specialized, intelligent devices. By leveraging Intrinsyc's products, engineering design services and systems integration expertise, customers make better decisions, improve productivity, and reduce time-to-market. Intrinsyc is a rapidly expanding, public company with global customers such as Microsoft, Intel, Philips, Siemens, IBM General Electric, Ford, and BEA Systems. To find out more about Intrinsyc, visit [www.intrinsyc.com](http://www.intrinsyc.com).

### **About the Symbian Platinum Program**

The Symbian Platinum Program includes companies that have a technology or strategic position that is key to the success of mobile computing technology surrounding Symbian OS. As part of the program, Platinum Partners benefit from a range of commercial services, including technical support and joint marketing opportunities as well as privileged access to Symbian OS source code and a dedicated Partner Support team. ### **Forward Looking Statements**

This press release may contain forward-looking statements that involve risks and uncertainties. These forward-looking statements relate to, among other things, plans and timing for the introduction or enhancement of our services and products, statements about future market conditions, supply and demand conditions, and other expectations, intentions and plans contained in this press release that are not historical fact. Our expectations regarding future revenues depend upon our ability to develop and supply products, which we do not produce today and that meet defined specifications. When used in this press release, the words "plan," "expect," "believe," and similar expressions generally identify forward-looking statements. These statements reflect our current expectations. They are subject to a number of risks and uncertainties, including, but not limited to, changes in technology and changes in the pervasive computing market. In light of the many risks and uncertainties surrounding the pervasive computing market, you should understand that we couldn't assure you that the forward-looking statements contained in this press release will be realized. The Company disclaims any intent or obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or results or otherwise.
