INTRINSYC INC. INVITED TO PARTICIPATE WITH PARTNERS AT INDUSTRY EVENTS

September 28, 1998 -- Intrinsic is very pleased to announce its participation with a number of industry partners at five different embedded industry events this fall. Intrinsic will announce and showcase new technologies and products with its partners at these events. Customers, investors and analysts are encouraged to attend in order to meet with Intrinsic's new management team (which has resulted from the pending merger between Intrinsic Software, Inc. and Annasoft Systems). Attendees will be given a unique opportunity to meet with a number of industry partners and will be able to see demonstrations of their products using Intrinsic's exciting new embedded Internet technologies.

Microsoft Embedded Solutions Briefing

October 6/7 at Microsoft's headquarters in Redmond, WA. Intrinsic will be demonstrating its DeviceCOM® and Rainbow® distributed computing web technologies with Microsoft's new Windows® CE® 2.1 operating system. Please contact Microsoft directly to register for this event.

ISA Expo 98 (<http://www.isa.org/techexpo>)

October 19-22 at the Houston Astrodome. More than 40,000 manufacturing and industrial automation technology professionals from around the world are expected to attend this event, and more than 800 companies are expected to participate as exhibitors. Intrinsic has positioned itself as the leading developer of Windows CE distributed computing solutions to this industry.

Intrinsic has been invited to ISA Expo 98 by Object Automation (<http://www.oa.com>) to be a booth partner and demonstrate its Intrinsic DeviceCOM technologies along with OA's Object-Based Control® solutions for the industrial automation market. Intrinsic has also been invited to participate in the Microsoft/OPC Foundation booth (<http://www.opcfoundation.org>) and demonstrate DeviceCOM's capability of providing seamless interoperability between various vendor's industrial automation product lines using Windows CE and Windows NT. Intrinsic is an OPC Foundation member. Intrinsic's technologies will also be showcased on Dynapro's (<http://www.dynapro.com>) Windows CE based equipment.

Embedded Systems Conference (<http://www.embedded.com>)

November 1-5 at the San Jose Convention Center, San Jose, CA. Intrinsyc is a gold level sponsor with Microsoft at this event. Along with its kiosk presence in the Microsoft booth, Intrinsyc will have its own booth (Annasoft Systems) on the show floor. Intrinsyc has also been invited by Hitachi to participate in the joint introduction of a new reference hardware design using Hitachi's SH-3 processor family and Intrinsyc's Rainbow technology.

Embedded Internet Workshop (<http://www.embeddedinternet.com>)

November 6th in San Jose, CA. Intrinsyc will be a featured speaker at this event and will discuss the wide range of consumer and commercial electronic product applications that are excellent candidates for the use of Windows CE and Intrinsyc's embedded web technologies. Annasoft is a co-sponsor of this event.

Comdex'98 (<http://www.comdex.com>)

November 16-20 in Las Vegas. Comdex is the world's largest computer industry trade show with more than 10,000 exhibitors and 250,000 attendees. Intrinsyc will participate with Microsoft in its partnership pavilion and will highlight a number of consumer based embedded Internet applications for Intrinsyc's Windows CE distributed computing web technologies.

Intrinsyc Software, Inc. (VSE:ICS, US:ISYRF) and Annasoft Systems have signed a Definitive Agreement to merge and form Intrinsyc, Inc., a Delaware registered company, subject to regulatory and shareholder approvals. This combined company will be a leading supplier of Microsoft operating systems, software components and tools, and value-added products and services to the embedded market. For more information on Intrinsyc Software Inc.'s products and services, please contact Annasoft. For corporate information on Intrinsyc, Inc. please contact the company at info@intrinsyc.com or via the Intrinsyc website at: <http://www.intrinsyc.com> or call (604) 801-6461.

On Behalf of the Board
Intrinsyc Software Inc.
