### CHINESE CT2 PUBLIC SERVICE OPERATOR PLACES ORDER FOR PCS WIRELESS' PRODUCTS

Vancouver, B.C. - December 14, 1994. Further to our September 21, 1994 press release, PCS Wireless, Inc. is pleased to announce that it has received an initial production order valued at \$250,000. for its MEX (Microcell Extender) and BEX (Base Station Extender) technology from the Huasheng CT2 Public Service Operator in China.

This system will be used to deploy PCS' Distributed Antenna Array (DAA) products in their network in Huasheng. PCS Wireless, Inc.'s products increase the capacity and range of CT2 service at low cost, as well as providing roaming capability - a key feature absent from current Chinese CT2 networks. Payment terms are for this initial order are C.O.D. via L/C.

"The wireless telecommunications market in China is continuing to grow. We remain confident that our wireless technology will play an important role in the deployment of these networks" said Guylain Roy, Director of Sales.

With products and installations in 12 countries and patents pending in 25, PCS Wireless Inc. is recognized worldwide as a leader in deploying wireless DAA telecommunications systems.

On Behalf of the Board
