PCS WIRELESS, INC. ANNOUNCES MANUFACTURING AGREEMENT WITH AVEX

Vancouver, B.C. - March 17, 1995. PCS Wireless, Inc. announced today that it has signed a volume manufacturing agreement with Avex Electronics Inc. for the U.S. production of Platform RAD/RASP Cable-TV based distributed antenna products. This agreement is open-ended and will start up with the initial volume production run that Motorola has recently released for delivery this summer through Avex's San Jose, California facilities.

Suresh Singh, VP Manufacturing for PCS Wireless states: "One of our large telecommunications customers brought Avex and PCS Wireless together a few months ago. They are qualified as a sub-contract manufacturer by almost all of our telecommunications customers and have a strong background in our industry".

Derek Spratt, Executive Vice President states: "This agreement is one of our first moves to leverage the core competencies of other larger organizations towards rapidly scaling our ability to meet the market demand for our products and technology".

Avex Electronics Inc., a subsidiary of J.M. Huber Corporation, is one of the three top U.S.A. domestic suppliers of electronics manufacturing and engineering services. Headquartered in Huntsville, Ala, Avex serves the computer, networking, consumer electronics and telecommunications industries, among others, from six manufacturing and engineering facilities throughout the United States, Europe and the Pacific Rim.

With installations in over 12 countries and patents pending in 25, PCS Wireless, Inc. is recognized worldwide as a leader in deploying wireless Distributed Antenna Array (DAA) telecommunications systems.

On Behalf of the Board

Derek W. Spratt
Executive Vice President
