PCS WIRELESS, INC. ANNOUNCES MOTOROLA PLATFORM RAD PRODUCT ORDER

Vancouver, B.C. - December 12, 1994. PCS Wireless, Inc. is pleased to announce that Motorola's Cellular Infrastructure Group has placed an initial \$110,000 order for its DCS1900 Platform RAD product for extended field trials with Cox Enterprises, Inc. in San Diego, CA. The Platform RAD product line allows wireless network operators to deploy PCS wireless systems using existing Cable-TV infrastructure networks.

Ralph Scobie states: "Our technology is very appealing to U.S. and Canadian wireless network operators as there is little or no effort required for site acquisition for base stations and antennas compared with traditional technologies."

With installations in over 12 countries and patents pending in 25, PCS Wireless, Inc. is recognized worldwide as a leader in deploying wireless Distributed Antenna Array (DAA) telecommunications systems.

On Behalf of the Board

Ralph G. Scobie
President & CEO
