PCS WIRELESS, INC. ANNOUNCES RECEIPT OF PATENT

Vancouver, B.C. - January 23, 1995. PCS Wireless, Inc. is pleased to announce that it has been granted patent # 5,377,255 by the United States Patent Office for its proprietary cordless telephone repeater design.

Dr. Andrew Beasley, the patent inventor states: "This patent covers technology that is currently utilized in PCS Wireless distributed antenna array (DAA) product offerings overseas, and which will soon find applications in the PCS market in the United States."

The United States patent portfolio continues to build: In summer of 1994 PCS Wireless was awarded U.S. patent # 5,321,736 in a related field. These patents and other pending patents will be offered for license to PCS equipment vendors in the United States.

With installations in over 12 countries and patents pending in 25, PCS Wireless, Inc. is recognized worldwide as a leader in deploying wireless Distributed Antenna Array (DAA) telecommunications systems.
